synectic Accountants & Advisers

Medical Industry Services

Think outside the numbers

synecticgroup.com.au

Solutions that come in all shapes and sizes

At Synectic, we have extensive experience supporting medical professionals and practices across Tasmania.

Our team of medical industry specialists understands the unique needs of your profession and your operating environment.

Senior Managers Lisa Peachey and Chantelle Cox lead our dedicated medical team, alongside Senior Accountant Nyssa Hodgkinson. Together they bring decades of experience supporting GPs, specialists, pharmacies and private practices.

We are highly experienced with medical software, including Best Practice, Medical Director and Cubiko, and ensure seamless integration with accounting platforms such as Xero and MYOB.

We work closely with clients to deliver proactive, tailored advice that supports both their professional success and personal financial goals.

Our medical industry specialists can help you with:

- Accounting and taxation
- Structuring advice
- Service entity arrangements
- Practice benchmarking
- Compliance with healthcare-specific regulations
- Accounting systems and technologies

Our medical industry specialists bring over 70 years of combined experience, with deep knowledge of the sector and the issues practice owners face. Behind them is a team of around 40 accountants, business advisers, financial advisers, SMSF specialists and auditors.

That means we can look after both your practice and your personal affairs, from tax and compliance to investments and retirement planning. We work with medical professionals across Tasmania and beyond, from our offices in Devonport, Launceston and Hobart.

Lisa Peachey

Senior Manager

Chartered Accountant (CA)

With over 20 years of experience in public practice, Lisa specialises across the medical and allied health industries, including large general practices, sole practitioners, optometrists, pharmacies, orthodontists, psychologists and allied health providers.

Lisa delivers tailored tax, accounting and business advice, helping medical professionals navigate complex structures, compliance requirements and industry-specific software integrations. Her interest in the sector is both professional and personal, influenced by her husband's career as a pharmacist and business owner.

Lisa is focused on providing insights beyond the numbers to help her clients grow and succeed.

Chantelle Cox

Senior Manager

Bachelor of Business (BBus)

Chantelle has over 30 years of experience as an accountant, tax specialist and business adviser.

Over that time, she has built long-term relationships with clients across the medical and allied health industries, including large general practices, individual GPs, health specialists and allied health providers.

Offering insights and guidance that contribute to her clients' success, Chantelle is passionate about providing support through the challenges and changes facing the medical sector.

Chantelle is committed to helping medical professionals build strong, sustainable futures for their businesses and families.

Nyssa Hodgkinson

Senior Accountant

Certified Practising Accountant (CPA)

Nyssa brings over 20 years of experience in the primary health sector, with finance and management roles across general practices, allied health providers and primary health organisations. She knows how a practice runs from the inside, from practice software and accreditation to budgeting and board reporting.

That practical understanding shapes Nyssa's accounting and advisory work. She helps medical professionals make sense of their numbers, strengthen their systems and make confident decisions about their practice.
