Self-managed super fund specialists

You can count on us.

Synectic Super Pty Ltd
ABN 66 137 822 372

Our service

About us

Synectic's accountants and advisers provide practical, comprehensive and reliable solutions to make managing and growing your SMSF easier.

Our highly experienced SMSF accountants hold specialist SMSF qualifications and work closely with financial advisers, business advisers and auditors. This puts us in a unique position to manage your SMSF seamlessly, with a full understanding of your fund's structure and strategy and how it aligns with your broader financial position.

Leading the Tasmanian SMSF market, we have provided a range of superannuation services for over 30 years. Our experts are supported by our investment in leading edge systems and tools more commonly associated with large scale administrators. However, our size and location in Devonport, Hobart and Launceston means we can offer you a tailored, personalised and accessible service.

Non-compliance and poor record keeping can be a disaster for your SMSF. We offer a full range of SMSF administration, taxation services and technical support, including:

- > Fund establishment and registration
- > Deed upgrades
- > Quarterly reporting and compliance monitoring
- > Annual accounting and tax returns
- > SMSF administration, including acting as a fund mailbox and maintaining fund registers
- > Pension establishment and reporting
- > Tax planning and strategies
- > SMSF borrowing strategies
- > Direct property investments
- > Cash out / re-contribution strategies
- > Estate planning and death benefits

Why Synectic?

- > Your SMSF accountants will work closely with your financial advisers, business advisers and auditors to provide everything you need over the full life-cycle of your SMSF. Our collaborative approach will take the complexity out of managing your SMSF.
- > Experienced team with over 30 years' experience providing superannuation services. We administer SMSFs with a diverse range of investments and complexities.
- > Regular fund reviews ensure your fund's compliance with the complex and rapidly changing superannuation laws, offering you protection from compliance risks.
- > Online access to your fund information, including financial statements, reports, investment and member documents.
- > Automated transactional data collection, fund mailbox service and fund register maintenance, meaning less paperwork for you.
- > Enjoy an accessible and responsive service, dealing directly with a Tasmanian owned and operated firm.

Our fees:

Importantly, our SMSF compliance administration fees are based on the complexity of your fund structure, not the value of your assets. This means that as your fund grows, the potential cost advantage of your SMSF is maximised.

Our team

Our team of professionals and support staff pride ourselves on being readily accessible and working closely with you to maximise the value of your SMSF.
